

PMT SHORT RAIL

TBSH | TRAPEZOIDAL SHEET METAL RAIL HIGH
PRODUCT DATASHEET

EFFICIENCY THAT GOES ON THE ROOF.

The PMT SHORT RAIL enables particularly material-efficient and cost-effective installations on trapezoidal sheet metal roofs. The compact short rail system allows fast direct attachment to the crown of the trapezoidal profile. It is pre-assembled, installation-friendly and designed for high loads.

PMT SHORT RAIL TBSH | TRAPEZOIDAL SHEET METAL RAIL HIGH

PRODUCT BENEFITS

Installation	Direct attachment to the crown of the trapezoidal profile for fast and easy installation
Logistics costs	Compact design and reduced number of components minimize transport and storage costs
Pre-assembly	Pre-assembled components for efficient installation
Adaptability	Suitable for all common module sizes
Warranty	15 years
Universal module clamps	25–50 mm module frame height
Cable routing	Space for neat cable routing beneath the modules
Product Highlights	Pre-assembled EPDM sealing strip
	Direct installation on the crown of the trapezoidal profile
	Robust design with reduced material consumption
	Optimized for economical installation and logistics

TECHNICAL DATA

Application	Trapez- und Wellblechdächer
Roof pitch	max. 75°
Module orientation	Portrait
Module field length	max. 7 m
Load	up to 5,4 kN/m²
Crown requirements	min. 15 mm
Sheet thickness	Steel min. 0,5 mm Aluminium min. 0,5 mm
Material	Aluminium EN AW 6063 / T6, stainless steel, EPDM seals
PV module compability	Suitable for all common PV module sizes

Errors and technical modifications reserved. Last updated: 22/06/2026.

CONSTRUCTION PARTS LIST

Object	Article no.	Designation
1	1000651	TBSH type 395
	1000995	TBSH type 3150
2	1000668	DBS A2 - 6,0 x25, with sealing washer
3	1005062	MK type 50
4	1005063	EK type 50
5	1000655	TBSH Anti-slip safety set
